

SINCE

1919

**NOT JUST
ANY
CURTAINS.**

A HOUSE OF
HAPPINESS

SPRING *2023*

A House of Happiness has evolved its own signature style which is reflected in our extensive curtain collection. We develop and produce our curtains under different labels and all of this is done in-house. Our collection is divided into three interior design styles for different target groups. All include a variety of fabrics that mirror the latest trends.

Our own labels - each with its own style and story - form the basis of our collection. This is where we express our creativity.
