CARONA F.R.

DESCRIPTION

Carona is a transparent curtain fabric with a woven design and a sustainable footprint. The woven design together with the naturally looking structure results in a lively curtain. The design is composed of square blocks with unequal wavy stripes. To produce Carona, used plastic PET bottles are collected and transformed into reusable polyester filaments. This process is significantly more energy-efficient than for virgin polyester and reduces the use of natural resources. Carona is available in 3 inspiring color combinations.

AVAILABLE COLORS

SPECIFICATIONS

Height/width	315 cm
Colors	3 colors
Composition	100% polyester (20% recycled)
Weight gr/m1	362
Weight gr/m2	115
Pattern height/width	39/43
Shrinkage tolerance	0%
